After that, you should be able to do a clean installation of Windows 8 1 using the new product key and won't have to worry about installing Windows 8 first and going the upgrade route.. We'll just note where anything differs RELATED: One caveat you should be aware of up front is that you can no longer download an ISO for Windows 8—just 8.. 1 And the product keys are different for Windows 8 and 8 1, so if you have a Windows 8 product key, you can't just use it to install Windows 8.. Instead,

you get official installation media straight from Microsoft NOTE: Depending on the OEM version of Windows that you are running, you might run into an issue using the OEM key with a retail version of Windows.. If it won't activate, you can always install and then call Microsoft to get them to straighten it out and allow your copy to activate.. 1 Instead, you'll have to install Windows 8, then do a free upgrade to 8.1 After you do the upgrade, Windows will assign the new product key to the installation.
